Rubia Valente Teaching PAF 9172 Grad Research and Analysis II LEC Online sec: NETB 2020 Fall

Text Responses

Comments to improve course

(PAF 9172) I do wish there were synchronous courses versus complete virtual. As someone who already has difficulty with statsitics it made it even harder. With the pressures and inability to separate work and school it was hard to find time to schedule office hours, so having at least one meeting a month to go over everything would have been very helpful. I really feel like I did nothing for the course and could not even gauge how well or poorly I was doing because there was just no sense of improvement on my end.

(PAF 9172) Professor Rubia was very patient, understanding and helpful. She put extra efforts to make sure we understood the materials. Her video lectures are amazing and made online learning a little easier.

(PAF 9172) Very well organized class and I appreciate the weekly checklist posted on blackboard/email to help remind students what was due. I also enjoyed having slack as an additional way to communicate with the professor and students.

(PAF 9172) In the face of online learning without an actual meeting time, Prof Valente made this class easily digestible but still challenging! She is very kind and always available for questions, and all course content, assignments and expectations were easy to find and well laid out. I wish we could have had the class in person but feel like I learned just as much this way!

(PAF 9172) Professor Valente is a very helpful, patient, and hardworking professor. I truly believe that if this class was in person it would have been much better for me because of how hands on she was even online. I must say though, I was not sure why this class was a required course because it felt very similar to 9170. Anyways, Professor Valente was a great help and I wish her nothing but the best in the future with other students! Thanks!!

(PAF 9172) Prof Valente is kind and always available to answer our questions. She well adapted to the teaching of this course in an asynchronous mode

(PAF 9172) Just wish it was in person! Great class, learned a lot. Even the way the quizzes are organized made things click as I answered questions.

(PAF 9172) Really enjoyed being your student. I wish we could have had classes together or met more often (a function of my crazy semester). I appreciated your open availability and willingness to meet and the support, care, and respect you showed your students. I enjoyed reading research articles and applying the learning. I would have liked to sometimes dig deeper into the content than the book but understand that a course needs to balance many different students needs. My only things to improve are out of your control: the book, not meeting for a synchronous class (I learn best that way)

(PAF 9172) This was a great course, and Prof. Valente really helps us learn everything we need to equip ourselves with the statistical knowledge required for public policy. Although it was online she made sure to be super available with any questions we had.

(PAF 9172) Professor Valente, this class was awesome! I truly wish we'd gotten the chance to take this class in-person to better interact with you, but you made this semester seamless. Thank you so much for all your hard work, compassion, and understanding.

(PAF 9172) Professor Valente is truly a joy. Despite the limitations of the asynchronous class format, she went above and beyond to make sure that we received as thorough and rich an experience as possible. She was able to get us through what can be a challenging course and was always very helpful.
